

How to create and edit favorite maps and sets?

The application allows you to save the configuration settings of displayed maps and layers in a favorite set, in order to restore it quickly when needed. The settings include the order of maps and layers, their [opacity](#), [contrast](#) and [saturation](#).

How to create a favorite configuration?

- Click on the **"Maps & layers"** ¹ menu and select **"Displayed maps"** ²;
- Click on the **"Save as favorite set"** ³ button;
- Optionally, choose a name ⁴ for your set, and click on **"Ok"** ⁵.

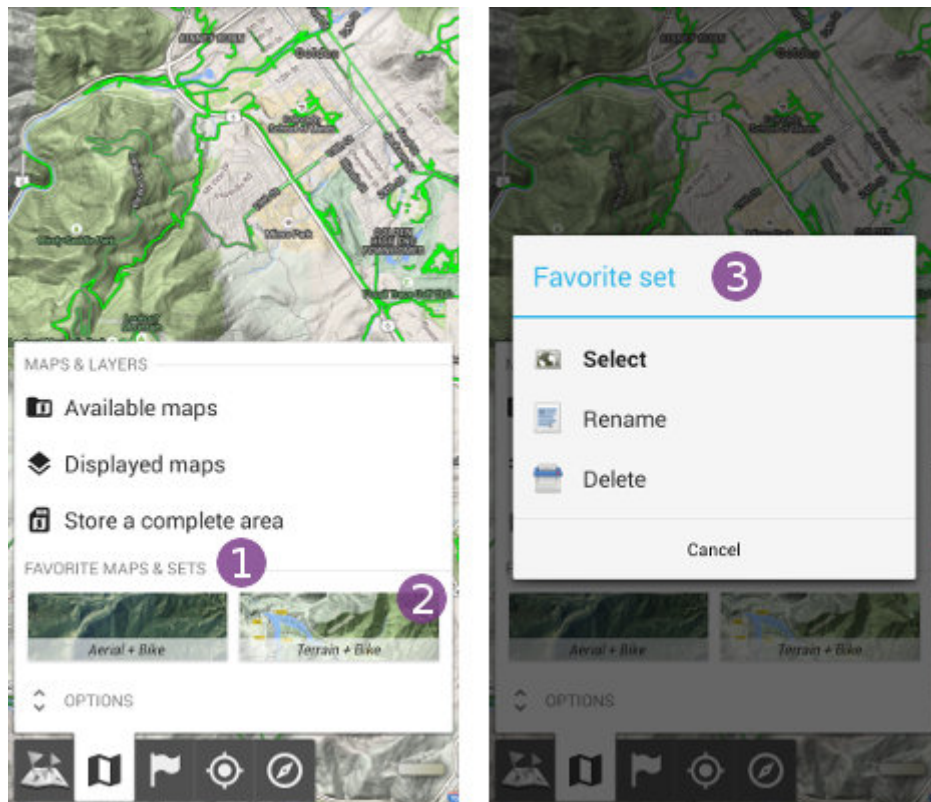

How to select or edit a favorite configuration?

Favorite configurations are displayed in the **"Maps & layers"** sub-menu, under the **"Favorite maps & sets"** ¹ section.

To select a configuration, simply click on it **2** and the application will restore all associated settings.

To rename or delete a favorite configuration, long-press it **2** to display it's options menu **3**.
