

# How to modify the contrast and saturation of a map or a layer?

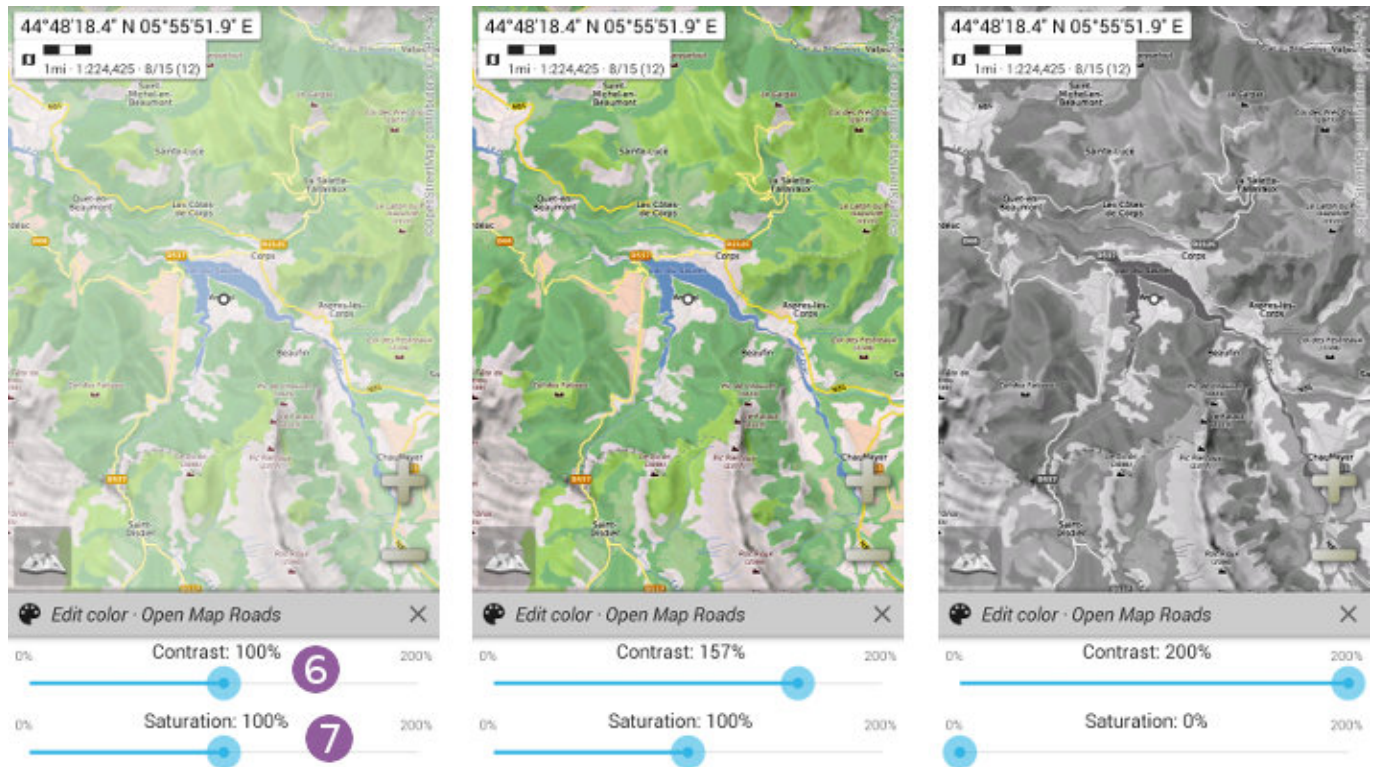

The application allows you to modify the contrast and saturation of any displayed map or layer:

- Click on the **"Maps & layers"** <sup>1</sup> menu and select **"Displayed maps"** <sup>2</sup>;
- Click on the **"Options"** <sup>3</sup> button of the map or layer you want to modify. Alternatively, you can long-press the map or layer <sup>4</sup>;
- Select **"Edit color"** <sup>5</sup> in the displayed menu.

- Move the **"Contrast slider"** <sup>6</sup> and **"Saturation slider"** <sup>7</sup> to adjust the color of the map or layer. The map display is updated in real time to reflect your settings.

<sup>i</sup> In order to save the contrast and saturation settings of all displayed maps, you can save them in a [favorite set](#).
