

How to create a waypoint?

- Move the map center icon **1** over the location where you want to create your waypoint and click on it;
- Click on **“Waypoint”** **2** just under **“Create a landmark...”**;
- If desired, type a name in the **“Name”** **3** text field;
- If desired, change the folder **4** in which to save the waypoint;
- If desired, change other properties like the color or the icon by clicking on **“More...”** **5**;
- Click on **“Ok”** **6** to validate;
- The waypoint is saved and displayed on the map **7**.

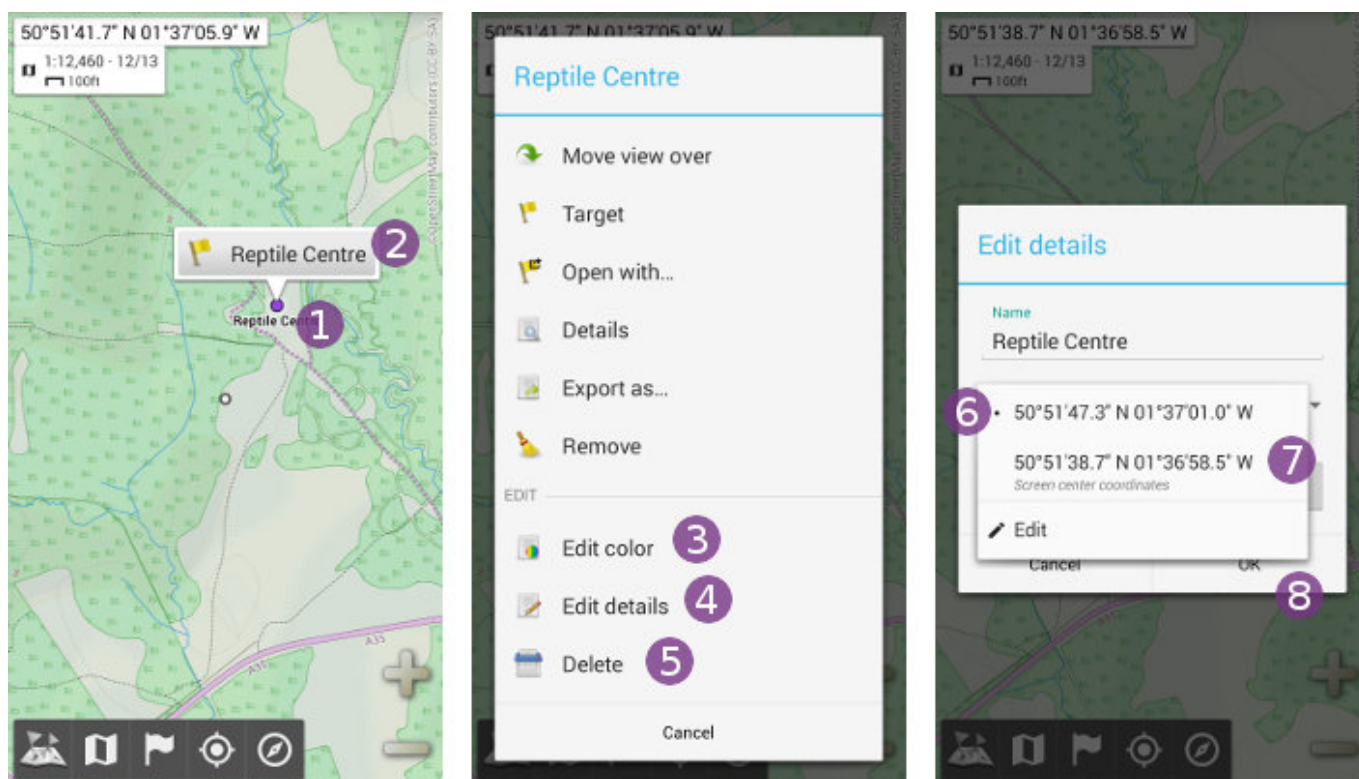

How to edit a waypoint?

To edit the properties of an existing waypoint:

- Click on the waypoint **1** displayed on the map, and on its name **2**;
- In the menu, click on:
 - **“Edit color”** **3** to quickly change it's color;
 - **“Edit details”** **4** to edit all properties;
 - **“Delete”** **5** to permanently delete it.

To move a waypoint to the map center location:

- Click on “**Edit details**” ⁴;
- Click on the current waypoint coordinates ⁶;
- Select the “**Screen center coordinates**” ⁷;
- Click on “**Ok**” ⁸ to validate.
