

## How to create a route ?

- Click on the **“Landmarks”** menu **1** and select the **“Create a landmark”** item **2**;
- Under the **“Local landmarks”** category, you can have a look at the current local folder in which one will be saved the route;
- Select **“Route”** **3**;
- If desired, enter a name for the route in the text field **4** and change other properties;
- Click on the **“Ok”** button **5**.

The edit mode of the set is activated.

To add waypoints to the route, process as follow:

- Move the map center over the first location you want to add;
- Click on the **“Add location”** button **6**. A point is added;
- Move the map center over the next location you want to add. A thin black line gives you a preview of what will be the route after adding another point. Click on the **“Add location”** button **6**. The route is updated.

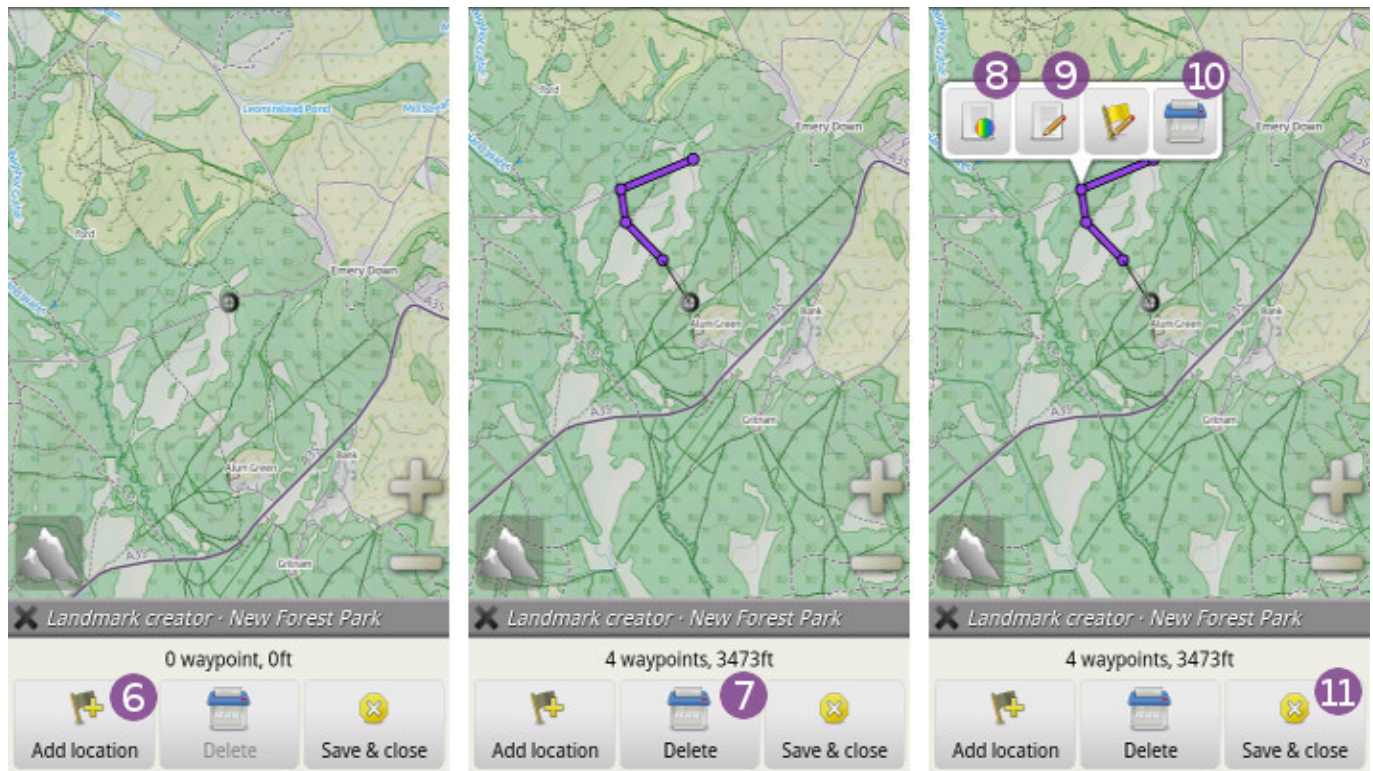

Add as many waypoints as you want. To delete the last waypoint (the one pointed by the black line), click on the **“Delete”** button **7**.

To edit/delete an existing waypoint:

- Click on the waypoint (must be one of currently edited route);
- From the displayed pop-up menu, select the desired action:
  - **“Edit color”** **8** to edit the display color of the waypoint;
  - **“Edit details”** **9** to edit the details of the waypoint (name, description, etc.);

- **“Delete point”** 10 to delete the waypoint.

When finished, click on the **“Save & close”** button 11.

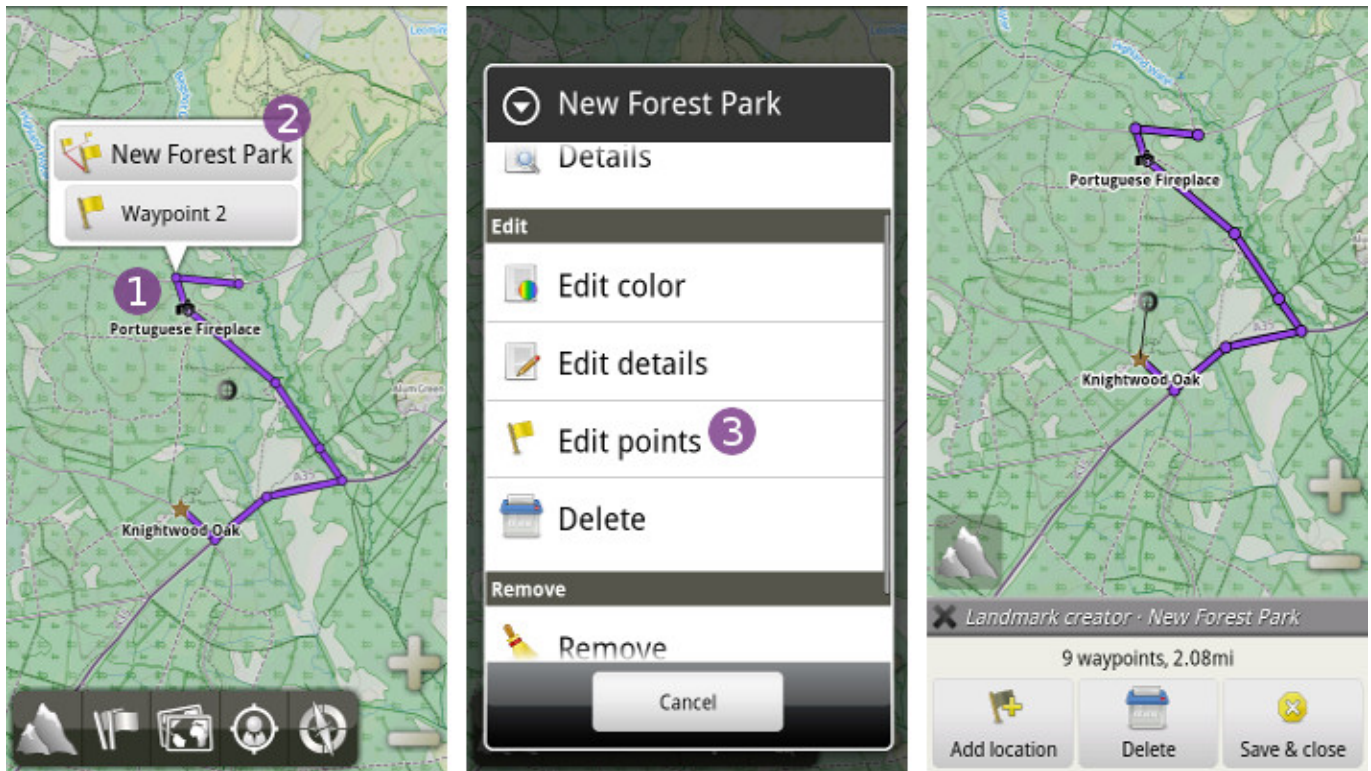

## How to add, move or delete points of a route ?

To edit the waypoints of a route, process as follow:

- Click on any waypoint of the route you want to edit 1;
- In the landmark choice pop-up, select the route 2;
- The contextual menu of the route is displayed. You can have a look at all available actions. Select **“Edit points”** 3;

The edit mode of the route is activated.

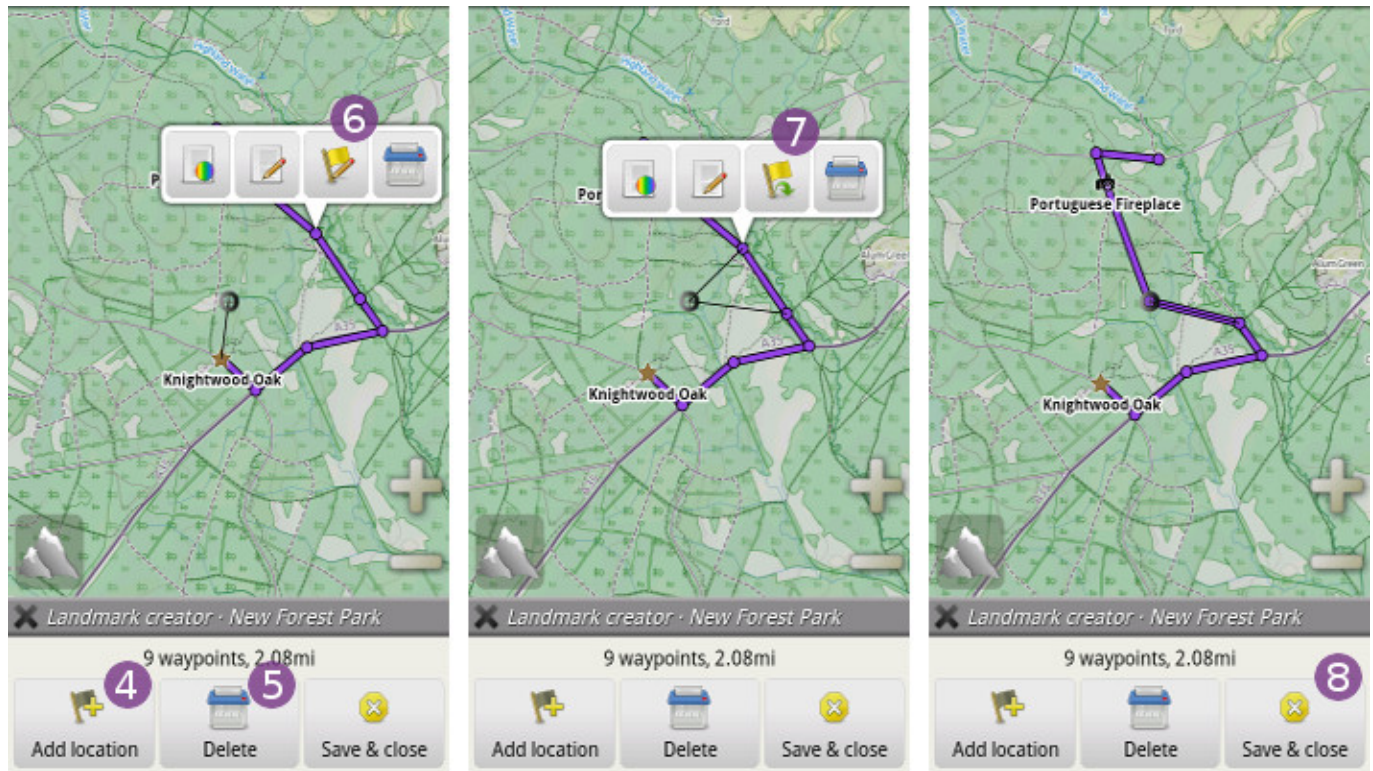

To add waypoints, move the map center over the location you want to add and click on the **“Add location”** button ④. To delete the selected waypoint pointed by the thin black line, click on the **“Delete”** button ⑤.

To move or insert waypoints, process as follow:

- Click on the waypoint you want to move, or the one where you want to start the insertion;
- From the displayed actions pop-up, select **“Edit point”** ⑥;
- The waypoint is selected, and the black line gives you a preview of the route after inserting a new waypoint at the center location;
  - To insert a new waypoint, move to the map center on the location you want to add, and click on the **“Add location”** button ④;
  - To move the selected waypoint, move to the map center on the new location you want the waypoint to be at, click on it to display the actions pop-up again, and select **“Move point”** ⑦.

When finished, click on the **“Save & close”** button ⑧.
