

# How to clear stored data?

All the data you store for a map (by displaying it or using [the store area tool](#)) is added to its local storage space which will grow on demand. At any time, you can this data:

- Click on the “**Maps & layers**” **1** menu, and select “**Available maps**” **2** to list all your maps;
- Click on the “**Menu**” **3** icon of the map you want to clear the data;
- Select “**Clear data**” **4**;
- Click on “**Yes**” to confirm your action.

**i** If the selected map were currently displayed, it will be removed from the displayed maps.

**i** This action will clear all the data of the selected map. In order to store and clear data by pieces, you need to use [workspaces](#).
