

How to select another map?

The application comes with a lot of different maps that fits various uses and area types. To change the displayed map:

- Click on the “**Maps**” menu **1** and select “**Available maps**” **2**;
- The list of all currently installed on-demand maps is displayed;
- Select any other maps from the list **3**;
- The list is closed and the selected map displayed **4**.

i In order to quickly switch between different maps, you can use [favorite maps](#).

i In addition to the maps available by default, you can [add maps from the community maps list](#).
